

Emmanuel Delos Santos

Purok 17, Hindangon, Poblacion, Valencia City, Bukidnon, Philippines | eds04025@gmail.com | 09068276496

Product-focused full-stack prototyper and visual storyteller who combines rapid software development with media production to deliver end-to-end solutions. Built custom Church and Farm management tools, automated workflows, and produced photography, video, and branded assets to streamline operations and boost engagement; skilled in system design, Lightroom, Canva, Enscape, and cross-functional collaboration.

Professional Summary

Driven by a passion for practical innovation, I use agentic engineering to rapidly build and deploy custom software — from a Church Management System and Farm Management System to automated productivity scripts. I blend this technical foundation with creative visual work, offering graphic design, photography, color grading, and reliable computer troubleshooting. This unique mix of rapid full-stack prototyping and visual storytelling lets me turn operational ideas into sleek, end-to-end solutions.

Areas of Expertise

Graphic Design | Video Editing | Media Tech | System Designer | Lightroom Editor | Brand Designer | Canva | Enscape

Professional Experience

Church Media Volunteer, Bible Baptist Church Hindangon

Jan 2023 to Present

Supported church communications and worship services by producing photography, video edits, and AI-generated animations for events and announcements. Created visually consistent media content for social sharing and church presentations. Assisted with organizing digital media assets and preparing content for ministry teams and special programs.

Education

Central Mindanao University

BS Agricultural & Biosystems Engineering, Jul 2022 to Jul 2026

Creative Committee Member, PSABE-PPG (2024–2026). Designed promotional materials and social media content, coordinated event branding, and supported event planning and volunteer coordination to increase engagement and attendance.

Technical Proficiencies

Lightroom Classic: culling, color grading, AI Remove, batch editing

Graphic Design & Branding: logo design, visual identity, Canva, Affinity, Adobe Illustrator

Google Workspace: Calendar, Sheets, Docs, and Excel

AutoCAD & QGIS: engineering drafting, DED/POW documentation

Agentic/AI-Assisted Development: rapid build of functional systems including Church Management System, Farm Management System, and custom tools
